

CZAR IS STILL ALIVE AT LAST ACCOUNTS

BULLETIN SHOWS HIM SOMEWHAT IMPROVED.

Wild Rumors in Circulation That the Emperor Was Dead—Disastrous Gale Along the British Coast—Socialists in Session—Affairs in China—Foreign News.

ST. PETERSBURG, Oct. 22.—Yesterday an unofficial dispatch was received from Livadia stating that the czar had passed a better night and had been able to sleep a little. This somewhat alleviated the anxiety, although even the official bulletins are now received with suspicion. After this bulletin nothing was received until 9 o'clock in the evening, when another private dispatch reported a continued slight improvement, also that he had a better appetite. This was confirmed at 11 o'clock by another official bulletin. This bulletin is signed by the five physicians in attendance upon his majesty. The crowds that had long and patiently awaited the issue of the bulletin read and discussed it with evident relief and then rapidly dispersed.

The dearth of news from Livadia Saturday occasioned the wildest rumors to circulate to the effect that the czar was actually dead but that the fact was concealed because the czarowitz had renounced the succession to the throne and the Grand Duke George, the czar's second son, had also died from the lung trouble from which he has long been a sufferer. These rumors were effectually silenced by the issuing of a bulletin at night that the czar had been out of his bed during the day but his general condition was unchanged. Yesterday, however, the rumors have been revived in an intensified form, Sabbath leisure and the gathering of unusually large congregations attracted by the special prayers for the czar assisting in the growth of the rumor and speculation. It is everywhere recognized that the doctors have no hope of his recovery and that they are only devoting their efforts to prolong his majesty's life until the arrival of Princess Alix at Yalta so that her marriage to the czarowitz may be celebrated before his death. It is said that the physicians have now been compelled to turn their attentions to the czarina, whose mind is said to be seriously affected by the strain of nursing her husband.

The special services in all the churches yesterday were well attended. The reverence displayed and the sincerity of the prayers offered show how deeply the public mind is affected. In the theaters here and at Moscow during the last few days there have been numerous instances during intervals between the acts of the audience calling on the orchestra to play the national hymn, "God Protect the Czar," to which the people would listen standing.

PEACE NEGOTIATIONS OPENED.

China and Japan Said to Be Trying to Call the War Off.

LONDON, Oct. 22.—A dispatch from Shanghai says negotiations for peace between China and Japan have been reopened.

WASHINGTON, Oct. 22.—A telegram received at the Japanese legation yesterday says the universal expression in Japan is that the war must be vigorously pursued until it is brought to a triumphant conclusion. The Diet has manifested the greatest willingness to grant everything asked by the government. The two houses Oct. 20 passed by an unanimous vote the bills introduced by the government relating to war expenditure, which involves a total sum of \$150,000,000.

GALE ALONG BRITISH COAST.

Sailors Drowned, Boats Driven Ashore, and Damage Done on Land.

LONDON, Oct. 22.—The Warner lightship, while being towed during a gale from Spithead to its station, broke away from the tug boat when near New Haven and was driven shorewards. A boat was lowered to replace the tow line, but a heavy sea capsized it and four of its occupants were drowned. The lightship and two other boats were driven ashore. The crews were saved by the use of the breeches buoy. The loss to the owners of fishing vessels is large, many of their boats having been destroyed. At Sunderland a life brigadesman was drowned. A man who was fixing a sign in front of a theater in Sunderland was blown into the street and killed. Much damage was done on land by the storm.

Repressive Measure Will Not Work.

FRANKFORT-ON-MAIN, Oct. 22.—The annual German social democratic congress opened last evening in the presence of an immense gathering of workmen. There were 200 delegates of both sexes, including nearly all the socialist members of the reichstag and diet of Saxony, Baden and Bavaria. Wilhelm Liebknecht said the new repressive measures would be as powerless to check the victorious career of social democracy as Prince Bismarck's similar law.

Attack Two Men Who They Thought Had Been Sent From New York.

NEW YORK, Oct. 22.—Striking cloakmakers rioted in the streets of the Twenty-sixth ward of Brooklyn yesterday. They were 400 strong and were armed with clubs, shears and revolvers. The demonstration was brought about by a rumor that agents of New York manufacturers had been sent among them, the object being to induce them to leave the union and take the places of the striking cloakmakers on this side of the river. Two men who were mistaken for agents of the boss cloakmakers were roughly handled before the mob could be dispersed. No arrests were made.

PHILADELPHIA, Pa., Oct. 22.—The three-masted schooner John D. Williams, Capt. S. Its agents here have given it up as lost with all hands.

Will Guatemala and Mexico Fight?

QUETZALTANGO, Guatemala, Oct. 22.—The opponents of President Barrios have distributed 500 rifles in the rural districts within a fortnight. The concentrating of troops by Mexico on the frontier has aroused fear among the people. If war is declared between Mexico and Guatemala a revolution undoubtedly will break out at three different points, and President Barrios will be among the first to be killed.

Prussian Farmers Stand by the King.

BERLIN, Oct. 22.—The Kreutz Zeitung, ultra-conservative, says the address presented to Emperor William by the deputation of the Farmers' Alliance of East Prussia declared it was far from being the intention of the landed proprietors to oppose their king, their natural shield and protector. They would joyfully sacrifice their last drop of blood for him.

ROBBED THE EXPRESS IN DARING STYLE

COOL GANG OF BANDITS HOLD UP A TRAIN.

Many Passengers Slightly Wounded in the Continuous Firing—Local Safe Looted of \$500—Posse and Marshals in Chase of the Desperados, Who Have a Long Lead.

WAGONER, I. T., Oct. 22.—The Kansas City & Memphis express, which left here at 9:30 Saturday night, was wrecked and robbed by the Cook gang of desperadoes at Correta, a blind siding five miles south of here.

The robbers commenced firing at the engine and coaches. As soon as the train stopped two of the robbers commanded the engineer and firemen to come down, and when they had dismounted, marched them in front of them to the baggage and express cars. Here they forced Express Messenger Ford to open the doors by perforating the side of the car with bullets. Meanwhile two more of the robbers had taken up a position at the rear end of the sleeper to prevent any one escaping, two others mounted the platform between the smoker and baggage car and two more the platform between the first and second coaches, all keeping up a continual firing.

The two robbers in the express car were meanwhile ransacking it, securing all the money in the local safe. They commanded Messenger Ford to open the through safe, but when he explained that the safe was locked at the main office and not opened until it reached its destination they left the car. The two on the front platform then started through the coach, demanding money and valuables. When they were about half way through a freight train following close behind whistled and Bill Cook, the leader, who had all the time remained outside, issuing commands, swearing at the passengers and shooting, called for all hands to come out. The men on the cars jumped out, and when all were on the ground fired a last volley at the train and disappeared in the darkness. There were eight or ten men in the party. Two of them were white and the others were half breeds. Many of the passengers were slightly wounded by bullets, but none it is thought seriously.

The Missouri Pacific immediately started a special train for Little Rock, carrying Supt. W. J. McKee, and picking up deputy marshals. United States Indian Agent Windom of Muskogee has ordered all the Indian police to report for duty, and will take the trail at once. The loss to the express company is \$500.

Later four armed men called at the section house at Ross station, six miles north of here, at 10 o'clock and compelled the section men to prepare their dinner. They were armed to the teeth and are thought to be a part of the band. After eating dinner they started west and the section foreman followed them to their hiding place, in the brush on the banks of Bull creek, where the entire gang of eight were encamped.

DYNAMITE EXPLODES AND SPREADS HAVOC

ACCIDENT ON THE CANAL NEAR SUMMIT, ILL.

Four Men Seriously Injured by Two Premature Explosions—Earl E. Frauenthal Killed at St. Louis by Contact with a Live Wire—Record of Casualties.

SUMMIT, Ill., Oct. 22.—Two men were seriously injured by a premature blast of powder at Richer & Lee's camp on the drainage canal, half a mile east of here, yesterday morning. Two others were injured in a similar manner Saturday evening. The injured:

COLLINS, THOMAS, laborer; face, neck and hands badly burned; probably fatal.

CONNELL, THOMAS, laborer; side of face, breast and arms badly burned.

POTTER, HENRY, laborer; face, breast and arms burned.

SMITH, JOHN, laborer; face, neck and hands burned.

The first explosion occurred at 5 o'clock Saturday evening and the second at 8 o'clock yesterday morning. The injured men were brought to Summit, where a local surgeon dressed their wounds, and then they were taken to Joliet. The men had drilled a hole four feet into the rock. They used an inch and a quarter drill. After drilling the hole they put in a small stick of dynamite to expand the hole. After the discharge of the dynamite they started to pour in some powder for the purpose of blasting the rock. The discharge of the dynamite had so heated the rock that it set off the powder as soon as it was placed in hole. Both accidents occurred in this way.

Change Their Conductors.

DETROIT, Mich., Oct. 22.—The run of every passenger conductor on the entire Grand Trunk system was changed yesterday in accordance with action taken by the Grand Trunk directors at their recent annual meeting. The order applies to conductors on all the lines, both in Canada and the United States.

Probable Murder by Robbers.

TUSCOLA, Ill., Oct. 22.—Hans Frahm, one of Tuscola's wealthy suburban residents, was found in his barnyard last night with his skull crushed and his face disfigured. He had lain for hours unconscious, and during that time the oil from his lantern caught fire and burned his right arm almost to a cinder. The doctors pronounce his case hopeless and he will probably die. He is unconscious and unable to make a statement as to who his assailants were. He was known to have drawn a large sum of money from the bank the day before.

CANADIAN GARBAGE BURNERS.

New York Commission Inspects the Device with a View to Its Adoption.

MONTREAL, Quebec, Oct. 20.—Messrs. Edson, Andrews and Delehanty of the New York city commission appointed to inspect systems of disposing of garbage visited the new works here modeled upon those of Leeds, England. The inventor of the system, Charles Thackeray, explained everything. At the base of a chimney 190 feet high is a series of incinerators—great closed fireplaces, with hoppers at the top, through which the garbage is fed, doors in front and ash pits beneath. Montreal collects garbage between 6 p. m. and 6 a. m. The fires of the incinerators are supposed never to go out. Alongside of each incinerator is an auxiliary fire, which helps combustion when the garbage is very wet. All vapors from the incinerators are carried through a separate furnace, called the fume cremator. Coal is used to start the incinerators and sometimes in the auxiliary fires, but for the most part the garbage itself is the fuel used.

IMPORTANT PENSION RULING.

Assistant Secretary Reynolds Defines the Legal Termination of Service.

WASHINGTON, Oct. 22.—Assistant Secretary of Interior Reynolds has made a ruling that section 7401, revised statutes, limits the legal termination of service in any pension case to either one of only two possible dates; these are the date of actual discharge for any other cause than expiration of the term of office of the organization and the date of disbandment of the organization because of the expiration of term of service. It is held that a determination of the commencement of service by the war department from its records after full consideration of the law and the facts, in any claim based upon service during or since the war of the rebellion, will be accepted by the interior department as final. The rule that pay is coincident with and determines the period of such is vacated and set aside and the consequent decisions are overruled.

SURE OF CONVICTION.

Interstate Commerce Commission Has Evidence to Support Indictments.

WASHINGTON, Oct. 22.—The interstate commerce commission is greatly pleased with the indictments found by the federal grand jury yesterday against the violators of the interstate law. The commission believes that it has collected a mass of excellent evidence against the indicted men, and that conviction will be the result of their trial. Railroad men laugh at the indictments. Under the construction of the law by Judge Grosscup, it will, they say, be impossible for the prosecution to get any damaging evidence from the indicted men. And without one of them confessing—a very unlikely thing, these railroad men say—it will be impossible to do anything with them.

GET A RULING SOON IN KOETTING'S CASE

DECISION OF THE SUPREME COURT TO-DAY.

The Milwaukee Banker Can Hardly Escape Even if the Finding is in His Favor, for a Re-Conviction Can Be Had with Very Little Trouble.

MILWAUKEE, Wis., Oct. 22.—The Supreme court is expected to hand down a decision to-day in the case of John B. Koetting, cashier of the South Side Savings bank. If the lower courts are sustained the ex-cashier and speculator will don a prisoner's garb at Waupun within the next sixty days, which time is required for the court's ruling to reach here. If not, Koetting will have a new trial and perhaps postpone his trip to the state penitentiary for many months to come. In that event State Attorney Hammel will push the case with all possible haste, and from evidence already brought out it is thought that there will be little trouble to reconvict Koetting. Mr. Hammel, however, does not anticipate an unfavorable decision and thinks that the Supreme court will decide that Koetting must serve his time.

Two other small structures adjacent sustained severe damage by falling walls, fire, and water. The loss on the paper company's stock was about \$10,000, with only \$3,500 insurance. All the buildings destroyed carry light insurance.

Alix Defeats Directum.

BOSTON, Mass., Oct. 22.—About 15,000 people saw the race Saturday between Alix and Directum. Even with Directum's managers knowing, as they must, that he would not be equal to the task, the public money made the stallion favorite in the betting before the first heat. Of course this changed after the first heat, when the mare trotted right away from him and won easily in 2:09. The second heat was little more than a farce, the mare winning in 2:14. Then Directum was allowed to draw out of the contest on the pretense of being ill, and the mare, to compensate in some measure for the disappointment to the crowd, went an exhibition mile in 2:07 1/4.

Attempt to Wreck a Train.

SAG BRIDGE, Ill., Oct. 22.—An attempt was made to wreck the late train on the Alton road two miles east of here at 1 o'clock yesterday morning. Fortunately the attempt was a failure, for there were about 300 passengers on board. Ties had been placed along the track just inside the rails. The engine pilot struck them in such a manner they were thrown off the track. It is believed by some the obstruction was placed on the track by tramps. The officials of the road were as once notified and detectives have been sent to investigate.

Milwaukee Convict Escapes.

MILWAUKEE, Wis., Oct. 22.—August Waldon, who was serving a three years sentence at the house of correction for burglary, made his escape about 6 Saturday night, and all efforts of the authorities to recapture or get track of the escaped prisoner has proved futile. Waldon was employed as a baker, and at quitting time he coolly walked by the guard and out into the street. He wore a baker's cap, and the guard, mistaking him for the foreman, allowed him to pass unchallenged.

LIES THEY UTTER ALL STRIKE HOME

BOOMERANGS OF DEMOCRATS PROVE VERY DEADLY.

Major Upham Enthusiastically Vindicated by Marshfield Democrats as Well as Republicans—How the Madison Democrat Views the Slanderous Campaign of Boss Wall.

These "truck store" lies are giving Boss Wall many sleepless nights. They are not having the effect he intended. The Madison Democrat sums up the opinion of all honest members of its party when it says:

"The Democrat isn't engaged in the business of defending or supporting republican nominees for public office though it prefers an honest republican in a place of trust to a crooked democrat—but it is with satisfaction that it realizes that the infamous libels on Major Upham published in the official organ are proving genuine boomerangs. Prior to his nomination Major Upham was universally regarded as an honest, enterprising and public spirited man, a reasonable, considerate and generous employer and a model citizen generally,—and he undoubtedly is all that today; yet the official organ, managed without scruple, characterless itself and the representative of the most disgraceful, disreputable and desperate gang of politicians that ever infested a respectable community, has dared to assault his personal integrity, his treatment of his employees and nearly every quality and characteristic which up to the opening of the present campaign were deemed creditable.

Couldn't Stomach Such Lies.

The utter wantonness of the libels inspired nearly two hundred of Major Upham's employees a fortnight ago to enter a vigorous protest. This was in the form of an affidavit, in which the signers, democrats and republicans alike, declared they had never been compelled to take anything but cash for wages already earned and that they had never known of a strike or any industrial trouble whatever occurring Major Upham's mills.

"Now, however, a score of democratic citizens of Marshfield, actuated by a continuance of the outrages perpetrated by the hired organ, have formulated over their own signatures an indignant protest against the guerilla warfare. They are physicians, merchants, insurance agents, Catholic priests, Lutheran pastors, tailors, livermen and other representative citizens, and they say that, though democrats because they believe the principles of democracy are right, they yet enter their earnest protest against the policy of attacking the personal character and business integrity of the republican candidate for governor, Major W. H. Upham, of Marshfield.

Has Aided Workmen Often.

"As a man and as a fellow citizen," the democratic witnesses continue, "Major Upham has ever stood ready to help any and all who needed assistance, without regard to their religion, nationality or politics; expecting nothing in return, and asking nothing. In labor he has always been liberal, just and honest with his workmen, and any one of them with a real or fancied grievance against the Upham Manufacturing company, can always lay the matter freely before Mr. Upham and be certain of a satisfactory adjustment."

"Not satisfied with this clincher to the base falsehoods set afloat by the Wall organ, they add:

"The city of Marshfield is essentially a city of homes, fully nine-tenths of its residents owning their own houses, such ownership in a great many instances having been made possible through the liberality of the Upham Manufacturing company, in supplying material, and giving credit far in excess of any possible security that could be offered, and no one appreciates this fact more than do the present and past employees of the Upham Manufacturing company."

Can't Win By Falsehood.

"These indignant Marshfield democrats continue their proclamation to a much greater extent, and in concluding say:—

"We believe that the party will win in this campaign, not by publishing misstatement and falsehoods against the business methods or personal character of a man who is entitled to and enjoys the admiration, friendship and respect of his fellow citizens, but from advocating the principles of true democracy, of which every true democrat is proud and for which every true democrat should honorably fight."

"Every employer who is endeavoring to treat his men fairly and well, will rejoice in the vindication thus accorded Major Upham. The blackleg campaign method used against him would with equal unscrupulousness be turned against any other candidate. Virtue and worth count as naught in forbidding them and no man's reputation is safe while they are tolerated in our politics. In this case the rebuke has come sure and swift and the democracy must suffer the bad reactionary effects of the outrage and excesses of the organ—Madison Democrat."

ORDERS FOR HAY CANCELED

Canada Drives Wisconsin Farmers and Shippers Out of the Market.

What has been feared all along, that Canada hay and oats would soon supplant the local product, has now become a stern reality. Large orders for Wisconsin hay for northern and eastern markets have been canceled, and no more will be shipped unless it be at much reduced prices. And this reduction would have to amount to more than the amount of freight.

Captain H. W. Hart of Green Bay, who has been doing an extensive business in hay, is one of those who had his orders canceled. Speaking about the matter of so vital an interest to farmers, he said:

"Yes, sir. Hay and oats are being shipped into ports north of here, and are taking the place of good American produce. At Thompson, Manitoba and other places the stuff is being shipped in large quantities. Yesterday we had an order of 100 tons of hay canceled, and I know of many firms which are getting Canadian produce instead of buying it here. One firm, for instance, bought 250 tons of hay and 15,000 bushels of oats."

"They are getting oats delivered up in that country for 32 cents per bushel and hay for \$9 per ton. We have been paying 35 cents for oats and \$9 and \$9.50 per ton for hay right here, so you see we are not in it with those fellows. We quit buying hay this morning. There is a big market up in that country for hay and oats. Last fall we handled about 80,000 bushels of oats and 30,000 tons of hay. So far this season we have not handled more than 500 tons of hay, and the prospect is not very promising. The loss of that market will not be a very good thing for our farmers, as they will find out before a great while."

George L. North, who for years has been a heavy shipper of Brown county hay, oats, etc., has also had most of his orders canceled. One of his New England customers telegraphed him yesterday as follows:

"Stop sending any more hay. Can't use it. Canadian shippers supply us at several dollars' less cost."

This is grim evidence. These are facts that cannot be disputed and will certainly have grave consequences in their wake.

SUNDAY SCHOOL CONVENTION

Missionary J. H. Leas Plans For District Gatherings During the Winter.

J. H. Leas, county Sunday school missionary, is now busy planning and working up Sunday school conventions. They desire to hold six district conventions in Rock county previous to the annual association meeting. Programmes are already printed for the first district convention which will be held in the Methodist church, three miles southwest of Hanover, on Saturday evening and Sunday, October 27 and 28. His desire is to accommodate Avon, Newark, Spring Valley and Plymouth townships. The program follows:

Saturday evening, October 27.—Devotional, led by Frank Dean; Young People Working for Young People, Rev. Goodacre.

Sunday morning—Devotional exercises. Election of officers. Address of welcome by the pastor. Response by county president J. T. Wright. What is the Sunday School to Me? David Throne. What is the Sunday School as Seen by a Teacher? Miss M. Davis. What the Primary Sunday School Scholar Wants, by a primary scholar of Hanover.

Sunday afternoon—Devotional led by Mrs. M. S. Buralow. Relation of the Church to the Sunday School, W. W. Wheeler. Field as seen by the Missionary, John H. Leas. Field as seen by the President, J. T. Wright. Some Causes and Remedies for Irregular Attendance at Sunday School, William M. Ross. How to Gather the Children into the Sunday School, Prof. Bacon. Business meeting.

A cordial invitation is extended to all lovers of Sunday school work, and especially the Sunday schools in Beloit and Rock townships. Following this convention Mr. Leas plans to hold a convention in the southeast part of the county. Further notice will be given soon. Any school desiring this help can find him by letter addressed Janesville, Wis.

B. F. LANDIS IS OUT ON BAIL.

His Trial on a Charge of Horse Theft Doesn't Come For Two Weeks.

B. F. Landis returned to Oshkosh Thursday evening, coming from Ohio. Pending his trial on charge of horse stealing he is out on bail. Mr. Landis, since his return, has not been "at home," to newspaper men, and several futile attempts have been made to see him. His wife was questioned, but could explain nothing of her husband's affairs except that his trial will take place in about two weeks, at which time Landis will go back to Ohio. She seemed to feel confident that her husband would be cleared, but professed ignorance regarding the whole affair.

TRIO OF GOOD MEN GOING TO MADISON

FENNER KIMBALL, E. F. HANSEN AND S. S. JONES.

Republican Nominees Are All Strong, and the Majority Will Be Larger Than Usual—How the Field Looks in the Clinton and Beloit Districts.

E. F. Hansen of Beloit, who will be the next representative in the assembly from the First district, is a young man who will fill the position with honor to himself and the party with which he has always been identified. When the republicans of that district nominated him they made a good move. Mr. Hansen is at present city clerk of the city of Beloit, to which office he has been elected and reelected.

E. F. HANSEN

by large majorities. While a young man in years he is not young in experience and will make an unusually strong representative. He is a very clever off hand speaker as all will remember who heard him nominate William H. Appleby for sheriff at the county convention. His remarks were simple but decisive and made a very good impression. Mr. Hansen's election is assured, as his district is strongly republican but his majority will be larger than the average.

Clinton Has a Word to Say.

But Mr. Hansen is not the only good man whom the republicans of the southern part of the country have decided upon by unanimous voice as their standard bearer. The good men and true of Clinton, got together a short time ago and nominated a man for the assembly. He was S. S. Jones, a farmer, and a level headed business man, who has all the qualities that

S. S. JONES

will go to make him influential. The best standard of a man's worth is his reputation among his neighbors and the men among whom he lives and works. On this score Mr. Jones will stand the closest scrutiny. Everybody who knows him speaks highly of his sterling qualities. He is a man of middle age and resides on his farm but a short distance from the village of Clinton. Voters of the Second district say they want no better man than S. S. Jones.

Mr. Kimball Runs Well.

The voters of the Third Rock county assembly district are to be congratulated upon the fact that they will

HON. FENNER KIMBALL.

send so able and experienced a man to the state legislature to attend to their varied interests. Fenner Kimball, the republican nominee is one of Janesville's most successful business men. Mr. Kimball has had the experience of one term in the state legislature, besides many years experience in the county board of supervisors. No man in the city or county

is better informed on public affairs. Mr. Kimball has for years been engaged in manufacturing in this city, he being now a member of the John Thoroughgood Co., as well as stockholder in a number of other manufacturing enterprises employing considerable help. He has lived in Janesville many years, and is thoroughly conversant with the needs of the city and county.

DIRECTUM'S FAME LEFT WITH KELLY

CANNOT GO WITHOUT THE JANESVILLE DRIVER.

Despite the Fact That Kelly Set Twelve World Records with Him Last Year, Hickok Could Not Make Him Come Anywhere Near a Satisfactory Performance.

Directum with John Kelly in the sulky established twelve world records last season.

In Orrin Hickok's hands this season he has been a flat failure.

Mr. Kelly made him the fastest stallion; the fastest four year old; drove him the fastest heat in a race; the fastest heat for a stallion; the fastest heat for a four year old; the fastest second heat; the fastest third and fourth heat; divided honors with Alix for the fastest fifth heat; won the fastest three, four and five heat races, and gave him a record of 2:05. All of these performances were, until this season, world records. Directum had never reached the limit of his speed. He had raced the circuit through, and been matched against pacers and everything else on four legs in addition. He was always a little faster than he needed to be to win and won a spot of money. This year he was the only trotter who had a winning heat of 2:10 or better to his credit who did not reduce his record. The Chicago Inter Ocean says:

Hickok in a Big Seat.

"Either Directum's star has set or Orrin A. Hickok's bubble of reputation as a great trainer has been pricked. The champion of 1893 has been a monstrous failure in 1894. The Mystic Park race must be nectar and cream to Monroe Salisbury. The Pleasanton manager had Directum last year and made him the observed of all observers, invincible in a race and the king of trotters beyond dispute. The owner of the stallion believed that this result was due 75 per cent. to Directum and 25 per cent. to Salisbury. The public is now satisfied that it was 75 per cent. Salisbury and 25 per cent. Directum. Hickok took Directum, the greatest race horse of his age, and has made him a second-rate trotter. There is no gainsaying that. Perhaps the stallion was ailing at the time of his Boston race. All the more to the discredit of the Talleyrand of the turf, for he was presumed to have the ability to bring the horse to an edge at the proper time. Mr. Hickok may not realize it, but the Boston defeat means more to him than to the horse. The latter, in other hands may recover his lost prestige. The trainer never will. It is doubtful if he will ever have another truly great horse in his stable, unless he is able to make one himself."

It would appear that Directum's speed last year was as much due to Mr. Kelly's skill and judgment as to Mr. Salisbury's management for a "good manager" is at sea without a "good driver." The Inter Ocean should have divided the credit between the two men, who should share it alike.

H. D. McKinney Did Right.

A good many horsemen around the country are "kicking" about the decision of the judges in the Robert J. John R. Gentry race. H. D. McKinney was one of the judges who decided the first heat when the crowd thought Gentry had won. The Nashville correspondent of the Chicago Tribune says:

"H. D. McKinney was not in the judges' stand today, having left for Janesville last night. The responsibility of the dead heat decision in the Robert J. John R. Gentry match Thursday rests with him, as O. B. Jenkins in a letter states that he thought Gentry was ahead, while Mr. Jewett favored Robert J., and Mr. McKinney caused the compromise."

What else could be done?

The Value of Brevity.

Previous to the advent of McLeod the Reading company used an old sign, "Beware of the Engine and Cars," followed by a series of injunctions that no man walking over the road would have patience to read. There were several accidents which brought the company into the supreme court, and the sharp lawyers opposed to the company claimed that those signs were not clear warning. Mr. McLeod went to Judge Paxson, who wrote this admirable sign: "Railroad Crossing—Stop. Look and Listen." Mr. Paxson received for this modest composition the sum of \$4,780, a trifle over \$869.66 a word, a higher rate than any author has received in the past.

THAT'S QUEER!

You say a collar and cuff that are waterproof?

Yes. And perspiration will not affect them?

Yes. And when dirty you need only wipe them off with a wet cloth or sponge?

Yes. Wonderful! How are they made?

A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made?

No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind?

Because every piece is stamped as follows:

Inquire for that and refuse anything else, or you will be disappointed. Suppose my dealer does not have them?

He probably has, but if not, send direct to us, enclosing amount. Collars 25c., Cuffs 50c. State size, and whether collar wanted is stand-up or turned-down.

HAD NO TIME TO WASTE.

Westinghouse Gave Vanderbilt as Good as He Got.

When Westinghouse first obtained his patent on the air brake, like most inventors, he was poor and friendless. He managed to secure an introduction to Commodore Vanderbilt, who was never noted for his gentle manners. Westinghouse found him engrossed in his correspondence, and he did not deign to stop reading his letters while the inventor extolled the merits of his invention. When he had spoken his little piece Vanderbilt for the first time seemed to take any notice of him, and, looking up suddenly, said in his gruffest tones:

"What's that you say?" So Westinghouse commenced all over again and explained how by an air pressure of thirty pounds to the square foot the brake was applied by the engineer, and when he finished he waited patiently for the verdict.

Once more the old commodore raised his head high enough to jerk out: "What's that you say about air?"

Westinghouse told him. Looking him steadily in the face the old man replied in freezing tones: "That will do; I have no time to waste with a d—d fool!"

Discouraged, but not disheartened, Westinghouse left, only later to bring the great invention to the knowledge of the Pennsylvania railroad authorities. With that opening it was easy enough to get other roads to use the brake, and Westinghouse's fame and fortune were made. When that time had arrived he one day received a letter from Commodore Vanderbilt, asking him to call at the Central's office. Mr. Westinghouse's reply was terse and to the point. He simply wrote:

"I have no time to waste with a d—d fool."

ONLY A GIRL.

But She Has a Record for Killing Rattlesnakes.

The town of Liberty, in New York, claims the champion rattlesnake hunter in the person of sixteen-year-old Mary Burton. Early last summer she killed a rattlesnake in her father's yard and cut off the rattles. Since then she has developed a craze for collecting the rattles of these snakes, and spends her time hunting the venomous reptiles. Up to date she has killed twenty-eight rattlesnakes, and from them has obtained twenty perfectly matched sets of rattles. Each set has nine rattles or segments. The other eight sets are odd ones, ranging from four to ten rattles in a set.

The women of that part of the state seem to have taken an amazing courage in dealing with snakes. A report from Hancock says that Mrs. Frank Tower, of that place, was on her way home after dark one evening when she heard a rattlesnake sound its rattles in the weeds at the roadside. She hurried home, said nothing to any one, got a lantern and a club, and returned to the spot where she heard the rattler. It was there still and sprang its rattles as soon as Mrs. Tower approached. She turned her light on it, saw it lying coiled ready to strike, and smashed its head with a club. The snake was an immense fellow, measuring over five feet, but it carried only nine rattles.

A young girl named Henrietta Quick, across the Delaware in Lackawanna, Penn., heard a noise among her chickens. She went out and saw a rattlesnake maneuvering to capture one. She cut its head off with a hoe. This one had thirteen rattles.

English Real Estate.

Lord Vaux of Harrowden, can justly claim to be original at a period when originality of the kind is rare. Most English landowners are now selling their family estates. Lord Vaux has reversed the process, having just bought back Harrowden, which had been separated from the title for over 200 years. Say what they will, for those who can afford to wait land is still one of the best investments. Population and the volume of wealth increases rapidly in these days, while the area of land, of course, must be stationary. This is the period of transition, and everything is more or less disturbed in consequence, but given another half century, when stability has more or less been re-established, and the value of landed property must inevitably improve considerably.

THIS DAY IN HISTORY

940—Aethelstan, Saxon king of England, died.
 1618—Arranged by the great of the great moguls, was born; died Feb. 21, 1707, having reigned contemporaneously with five English monarchs and the Cromwells.
 1492—First meeting between Europeans and American aborigines on board Columbus' vessels.
 1685—Louis XIV revoked the edict of Nantes.
 1740—Sir Philip Francis, alleged author of the famous Junius letters, was born in Dublin.
 1811—Franz Liszt, Hungarian musician, was born; died 1882.
 1832—Leopold Damrosch, eminent musician, born in Posen, Prussia; died 1885.
 1840—Henry Richard, Lord Holland, British statesman and writer, died.
 1882—Captain Mayne Reid, the well known English novelist of adventure, died; born 1818.
 Congressman Wilson, of West Virginia, said in his London free trade speech that a free government "is the most uncertain and short-lived." Humph! if many districts elected men of the Wilson caliber to congress we might be inclined to believe in this indirect prophecy of the early downfall of our government; but, as it is, we must call it rot of the worst sort, uttered for the purpose of pleasing foreign enemies of our government.

It has from the day of his nomination been plain that the New York Sun did not like Tammany's candidate for mayor; but it was not until the Sun began to attack the crime of perjury in connection with the naturalization of aliens that it was thought it really intended to abandon Tammany.

The democratic postmaster of the United States senate, R. A. Dobbin, must be a very cheap sort of a democrat. He has been found guilty of receiving seventy-four dollars in excess of his legal per diem as president of the Howard county, Md., school board.

General Harrison was right when he said the shadow of democratic tariff reform has clouded every home in the land. Aye, and let every voter remember that the shadow will remain until dispelled by the glad sunshine of republican protection.

Those Mormon missionaries who were tarred and feathered in Kentucky showed poor judgment in going there. The turning down of Breckinridge should have warned them that they would not be tolerated.

There is nothing surprising about the domestic servants of Mr. Morton being all foreigners. That is an occupation that white Americans are not willing to fill.

If labor leaders receive passes from railroads they probably get substantial favors from other corporations, and such favors are not granted for nothing.

Snow came very early this year. Nature, always kindly disposed, probably intended to warn the poor democrats of the coming November blizzard.

If there is anything more amusing than the adoption by an organization of hoodlums of a resolution not to ride in Pullman cars it does not occur to us at this moment.

If Queen Lil has really gone crazy, as report says, it is probably the effect of her trying to unravel the puzzle of Mr. Cleveland's Hawaiian policy.

The train robbery near Washington indicates that some of the disappointed office seekers have changed their occupation from beggars to takers.

HE DESERVED A REWARD.

For His Invention Had Caused the World Lots of Trouble.

His satanic majesty was in exceptionally good humor. Business had been excellent for some time, and he wished to show his appreciation of his extraordinary run of good luck. "Dantello!" he called to one of his sprites, "I wish to give a little relaxation to some one of the most deserving of my victims. You are familiar with them. Whom would you suggest?"

"That depends, sire," replied the sprite, "upon what you call deserving."

"Well," said his satanic majesty thoughtfully, "I would like to bestow some little favor upon the man who did the most to make a hell upon earth."

"I think I know the man, sire," said the sprite deferentially, "but lest I be mistaken would you kindly be a little more specific?"

"I refer to the man who by his innate devilishness has given me subjects without number, who above all others has driven men to the use of profane language, who by his fiendishness has driven men, otherwise good and noble, to perdition."

"I thought I could not be mistaken, sire. I will bring him to you directly."

"Who is your selection?"
 "Who could it be, sire, but the man who invented the big, clumsy, horrible railroad-exit turnstile?"

Damaged by the Storm.

St. John's, N. F., Oct. 22.—The steamer Silvia, from Pilleyes island, reports extensive damage caused in that neighborhood by recent storms. The unusually high waves carried away the wharves and water side improvements.

Closes Its Session at Galesburg.

GALESBURG, Ill., Oct. 22.—The annual convention of the Illinois Christian Endeavor Union closed last night, and it has been one of the best the union has held. Special services were held in the various churches yesterday.

Fort Sully Is Now Abandoned.

PIERRE, S. D., Oct. 22.—Troops from Fort Sully marched to the city yesterday and are in camp. They will start for Fort Niobrara, Neb., by special train to-day. Fort Sully is abandoned.

Like "Sweet Belle Jangled Out of Tune," Weak nerves respond harshly and inharmoniously to slight shocks, which would produce no effect upon strong ones. The shrill outcry of a child, the slamming of a door, the rattling of a vehicle over uneven pavement and other thrilling disturbances effect weak nerves—sensitive nerves, so to speak. Nervousness is largely attributable to dyspepsia and non-assimilation of the food, a very usual concomitant of sleeplessness. Digestion and assimilation renewed by Hostetter's Stomach soon begot nerve quietude and sound repose. The great alleviative causes the liver and bowels to unite in co-operative harmony with the stomach, whereby the general tone of the system is raised to the true standard of health. In malaria, complaints, rheumatism and kidney trouble, the Bitters produce excellent results.

O. L. Rice, Mendota, Ill., writes: "Have used your Japanese Pile Cure and found it a sure and permanent cure." Sold by Smith's Pharmacy.

Japanese Pile Cure is the only one that can be guaranteed, as it is the only cure. Sold by Smith's Pharmacy.

Train Robbers Captured.

ABILENE, Texas, Oct. 22.—The news is current on the streets here that three of the four train robbers who successfully held up the westbound passenger train near Gordon at noon Friday were captured near Strawn Saturday by Texas rangers and that all of the three were badly wounded as a result of a pitched battle between themselves and the rangers when being arrested.

WOMEN MUST SLEEP.

SO SAYS MEDICAL AUTHORITY.
 Serious Results of Sleeplessness, and the Way to Avoid It.

(SPECIAL TO OUR LADY READERS.)

If you are dangerously sick, what is the first duty of your physician? He quiets the frightened nervous system, he deadens the pain, and you sleep well.

Men fall by the wayside, victims of over-strained mental activity.

Friends ask, "What is it?" and the answer comes in plying tones, nervous prostration.

Thousands of women tremble on the brink of the same precipice.

A little more pressure; some sudden grief, real or even imagined unkindness from loved ones, and over the brink fall one more victim of nervous prostration.

It came upon you so quietly, in the beginning, that you were not alarmed. But when sleep deserted you night after night, until your eyes fairly burned the darkness, then you tossed in nervous agony, praying for sleep.

You ought to have known when you ceased to be regular in your courses, and you grew so irritable without cause, that there was serious trouble somewhere.

You ought to be told that indigestion, exhaustion, womb displacements, fainting, dizziness, and backache send the nerves wild with affliction, and you cannot sleep.

Want of sleep gives birth to a thousand morbid fancies of the brain.

Lydia E. Pinkham's Vegetable Compound for twenty years has saved women from all derangements peculiar to women. It has saved them from torments for years, and it will save you. Go to your druggist at once; soon you will be well and sleep like a child.

IN paint the best is the cheapest. Don't be misled by trying what is said to be "just as good," but when you paint insist upon having a genuine brand of Strictly Pure White Lead

It costs no more per gallon than cheap paints, and lasts many times as long.

Look out for the brands of White Lead offered you; any of the following are sure:

"Southern," "Red Seal," "Collier," "Shipman."

FOR COLORS.—National Lead Co.'s Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of strictly Pure White Lead the desired shade; they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

A good many thousand dollars have been saved property-owners by having our book on painting and color-card. Send us a postal card and get both free.

Y.M.C.A. RAISE \$3,000 IN A UNION MEETING

LIBERAL GIFTS ARE MADE BY
JANESVILLE PEOPLE.

C. B. WILLIS Conducts a Vigorous Campaign and Makes a Good Start Toward Raising the \$7,000 That Is Still Needed—Sunday Given Up to Association Work.

Three thousand dollars for the Janesville Y. M. C. A. in two hours. No wonder President E. E. Loomis felt happy over the results of last night's union meeting. The very size of the meeting gave promise of great things. People crowded into the Congregational church until the walls fairly bulged. Every pew was full, every chair was full and the crowds pressed forward as if bound to test the capacity of every nook and corner. C. B. Willis of Milwaukee—tall, blonde-whiskered, energetic—led in a song service, and then President Whitehead closed up the work of the convention and put the meeting in Mr. Willis' hands.

There was no time wasted in preliminaries.

As simply and as plainly as possible the eloquent Milwaukeean told how Janesville's building had grown, how eleven thousand dollars had been raised and two thousand more promised conditionally in five hundred dollar lumps by Judge J. W. Sale, Mrs. Laura Kendall, J. D. Rexford and F. S. Eldred. Seven thousand dollars more was the sum needed. Would the meeting give it? Five hundred dollar subscriptions were asked for but none came. There was a pause and Mr. Willis said:

"I see you are in no condition to give. I shan't ask the people to raise money. I'm going to ask God to raise it for us. Let us have a season of prayer."

There were brief prayers by three or four in the congregation, and subscriptions began to pour in. First was a five hundred dollar pledge from Miss Susie Jeffries. Pledges of \$250, one hundred dollars, fifty and twenty-five dollars followed. These who gave \$25 or more were:

\$500—Miss Susie Jeffries,
\$250—A friend.
\$100—W. S. Jeffries, S. B. Lewis, F. D. Lewis, Dr. M. G. Hodge, D. D. E. D. Head, F. C. Anderson, B. F. Dunwiddie, A. F. Hall, S. B. Heddles, Mrs. John Carle, Miss H. A. Macdonald, T. M. Jeffries, J. C. Frendall and wife.
\$50—Mrs. Dr. Butler, Mrs. E. Shoppell, R. M. Bostwick, M. H. Soverhill.

\$25—Henry Rogers, Abram Phelps, S. Grundy, H. F. Keller, Joseph Strickler, M. M. Phelps, Miss May Clarke, Mrs. H. M. Hanson, B. M. Bucklin, W. W. White.

Strong pleas by President Whitehead, Dr. M. G. Hodge and H. J. Cunningham, spurred the givers. Besides money the association received one pledge of a lot valued at \$175 from Mrs. M. B. Millmore. A Spring Brook Co. has also been given by Mrs. Anna B. Hughes. The total of the pledges made last night exceeded \$3,000. Quite a number also took home cards to be filled out at leisure. Persons who subscribed can pay the same at the Merchants & Mechanics' bank, and will be given receipts for the same.

Sunday was given up to Y. M. C. A. work in nearly all the city churches. C. B. Willis spoke in the Baptist church, H. T. Pitkin and G. H. Timmings in the Congregational, J. R. A Lucky Strike.

A salesman representing one of New York's largest cloak manufacturers had been in Chicago for ten days awaiting orders from his house to proceed with his trip, but instead he was notified to sell all his samples and return home (the existing strike among the cloak makers making it impossible for the house to execute orders.)

With the usual result, when there is anything good to be had, we were right on hand and secured the entire line of 170 garments—jackets, capes, misses' garments, plush garments and extra size coats, up to 46 inch bust.

Everything that's new for outside wear.

They are here and on sale today.

ALDERMAN CUNNINGHAM ASSIGNS Liabilities Said to Be About \$2,500 With the Same Assets.

Alderman William Cunningham's saloon at 67 West Milwaukee street was closed today, and a paper on the door announced that Alderman Cunningham had made an assignment to John C. Lynch.

"I made an assignment to give all my creditors a chance to get their pay," said he. "I am owing the Joseph Schiltz Brewing Company several hundred dollars, and they were about taking unfair advantage of me, I thought, and an assignment was the only thing left to do. I do not know just how I do stand, but I believe that the assets are sufficient to cover all liabilities."

The brewing company hold a mortgage on the fixtures for \$1,500 and interest, but the mortgage does not cover the stock. Agent Henry Blunk will take possession of the fixtures under the mortgage, and the assignee will be left in possession of the stock. It is said the liabilities will amount to twenty-five hundred or three thousand dollars.

ANDREW KULL HAD FEW HEARERS.

Small Audience at the Democratic Rally Saturday Evening.

Andrew Kull, the democratic candidate for the assembly, spoke at the Myers Grand opera house, thereby pulling the plug on the local campaign, Saturday evening. He said fearfully that democrats "saved the people \$22,000 and still there was a cry about hard times." Whether the \$22,000 represented the profit on the roster job Mr. Kull did not say, and none of his audience of twenty-five men and twelve boys dared to ask. John W. Els heard early in the afternoon the probable size of the crowd and stayed in Illinois, addressing the crowd that gathers every Saturday evening in Hank Tarsney's general store at Steuben Corners.

SOURCES OF THE MISSOURI.

Half a Dozen Streams Combine to Form the Big Muddy.

Since the time when Lewis and Clarke ascended the Missouri river in a rowboat, occupying the better part of the years 1801-2-3, equipped by the United States government for the purpose of exploring the country along and at the source of the Missouri river, the stream has become familiar as far as the head of navigation, Fort Benton, Mont. Beyond that point it is yet comparatively unknown. The actual headwater of the Missouri, or what should be known as such had it been intelligently named, is DeLacy's or Shoshone lake, in the National park. This lake, a considerable body of water, is the source of the Madison river and forms with the river the drainage outlet for most of the waters of that portion of the National park. The Gallatin, or left source of the Missouri, is formed by two streams, the East and West Gallatin, which unite about a mile above its junction with the Missouri. The Madison and the Gallatin are both somewhat smaller than the Jefferson. Had Lewis and Clarke ascended the Madison instead of the Jefferson, which, being the larger stream, they naturally mistook for the continuation of the Missouri, they would have discovered the famous geyser in Fire-hole basin, Shoshone lake, and all the country which is now incorporated within the limits of the National park. The Big Hole and the Beaverhead rivers flow into the Jefferson at Twin Bridges, a few miles from the confluence of the Jefferson with the Missouri, so that in reality, there are six considerable rivers all joining one another within a radius of a few miles, which unite to form the longest river in the world, measured from the gulf to the heart of the Rocky Mountains.

LOST ANCHORS.

How They Are Fished for and Recovered From the Sea.

One of the queer occupations of mankind is that of dragging for lost anchors. It is carried on in bays and rivers, and even in the open sea along the coast. A writer says that several sloops and schooners are engaged almost exclusively in this pursuit. The hunters are as familiar with the ground where anchors are to be found as fishermen are with the favorite haunts of the living inhabitants of the sea. It is said that the stretch of sea off the Delaware breakwater is most fruitful in dropped anchors. This is owing to the fact that so many vessels are compelled by the state of the weather, or of the tide, to ride off the breakwater, being often caught in gales while stationed there. The manner of fishing for lost anchors is most simple. A chain is let down in a loop long enough to drag along the bottom, and the vessel goes on her way with all hands on board alert for a bite, and a bite usually ends in a catch. The recovered anchors are usually sold again at a price of about four cents a pound, which is a cent under the market price for new anchors. A big anchor will weigh 6,000 pounds, so that the fishermen make \$240 out of it. More often, however, the anchors fished up weigh from 1,000 to 2,000 pounds, and there is a pretty profit in the business even then.

ONLY PAUPERS.

Being Dead Had no Use for Gold Filling in Their Teeth.

Nothing is useless nowadays—not even a defunct pauper. Hood's plaintive wail—
Rattle his bones over the stones.
He's only a pauper, whom nobody owns—is now out of date. The guardians know better than to act recklessly, for often the party concerned is the possessor of a set of artificial teeth which contains a good deal of gold—last relic of more prosperous times—and in the interest of the taxpayers the precious metal must be secured and turned into cash. Often, too, they are owners of rings or trinkets, not pawnable, but still containing as much auriferous value as not a few modern gold mines. These have to be collected and also converted into cash by means of the melting pot. In London the melting process takes place once a year, and has just been accomplished for the season. The jewelry dealt with is what is found on paupers who die friendless and unclaimed in various establishments. This time rings, chains, brooches and trinkets have been melted down, and produced a bar of gold estimated at eleven karats and worth about £40. A good portion of it was gotten from the plates of artificial teeth. Mr. Walton said that on one set of artificial teeth there was at least \$4 worth of gold.
